Aim of the Course

The aim of the course is to showcase the development of an optimal MDT operational policy and of a novel MDT networks in order to effectively and efficiently manage a modern cancer service.

Educational Outcomes

- MDT structure and differences in practice across Europe and USA
- Cancer outcomes and commissioning of cancer services
- Information technology requirements
- Setting up a new MDT
- Effective communication within the MDT

Educational Methods

- Plenary lectures
- Interactive debates

Ideal Course candidates

- Senior trainees and consultant medical and surgical oncologists
- Radiologists
- Gastroenterologists
- Medical managers
- MDT coordinators
- Cancer nurse specialists

Course Coordination

Ana Galán
